

Rescinded Burn Restriction Order 2021-R1

Due to current and forecasted conditions, Colorado Springs Fire Department, by and through its Division of the Fire Marshal, determines risks inherent to structure, grassland, and wildfires have reduced. Therefore:

**Effective Friday, February 25, 2022, at noon (MST),
City of Colorado Springs rescinds Burn Restriction Order 2021-R1.**

The following acts remain **PROHIBITED AND ILLEGAL AT ALL TIMES** within the City of Colorado Springs:

- Recreational fireworks / devices requiring ignition such as sparklers, snakes, aerials, comets, flares, flyers, fountains, missiles, mortars, spinners, punks, rockets, and shells
- Trash / rubbish burning

As of February 25, 2022, at noon (MST), the following acts are **ALLOWED** within the City of Colorado Springs:

- Bonfires – **require a permit**
- Cooking devices and portable or fixed fireplaces* intended for outdoor use, fueled by solid materials (wood, pellets, or charcoal) and / or liquid propane gas (LPG), natural gas, or liquid fuel
- Hot work activities such as welding, brazing, blasting, and torching – permit not required
- Model rockets – permitting is not a requirement
- Professional fireworks, pyrotechnics, or flame effects – **require a permit**
- Code conforming recreational fires

*Details significant to portable outdoor fireplaces in a single-family home as well as other outdoor burning criteria are available via the website: coloradosprings.gov/fire-department/page/outdoor-burning-guidelines .
